I. Introduction

The primary purpose of this report is to investigate and fully and fairly disclose the actuarial position of the Lancaster County Employees' Retirement System as of January 1, 2020 and to establish the proper appropriation for the 2020 plan year, in accordance with the funding standards of Section 6 of Act 96, 1971 of the Commonwealth of Pennsylvania as amended.

On the basis of the actuarial methods, assumptions and major plan provisions summarized in this report and in reliance on the member data and statement of the Fund's assets furnished by the County, to the best of our knowledge the information in this report is complete and accurate.

To the best of our knowledge, this report is complete and accurate and all costs and liabilities have been determined in conformance with generally accepted actuarial principles and on the basis of actuarial assumptions and methods which are reasonable (taking into account past experience under the plan and reasonable expectations) and which represent our best estimate of anticipated experience under the plan.

The included measurements are based on a single set of assumptions regarding the future experience of the plan's investments and participants. Future measurements and funding needs of the plan could vary significantly based on the actual experience, including differences in investment performance, and any changes in the future expectations. Estimates of the potential impact of changes in the plan's assets and liabilities are included in Schedule O.

Respectfully submitted,

Korn Ferry (US)

II. Findings

Certified Actuarially Determined Contribution

Please note that the certified actuarially determined contribution which is reported on page 12 of this report and which must be funded in 2020 is \$4,918,872. This amount is required to ensure that the fund accumulates sufficient assets to pay future benefits and should be paid by the County from the General Fund.

Actuarial Adjustments

Also note that the balances in the Reserve Accounts on page 8 reflect the following transfers which are necessary to keep the balance in the Retired Member's Reserve Account equal to the liability for the retired lives and to reflect the difference between the amount of interest credited to the respective reserves and the interest rate assumed in the valuation of the liabilities. Please make these transfers in your records:

	DEBIT		CREDIT	
County Annuity Reserve Account	\$	15,580,199.51		
Retired Members Annuity Reserve Account			\$	15,580,199.51

Actuarial Assumptions

Effective January, 2020, the accumulated deduction valuation method and the investment return assumption have been changed and the Pub-2010 mortality table has been adopted. The effect of these changes is an increase in the unfunded actuarial accrued liability of \$8,843,857 and a decrease in the actuarially determined contribution of \$57,180.

Lancaster County Employees' Retirement System

Plan Description and Contribution Information

Basis of Accounting: The Lancaster County Employees' Retirement System financial statements are prepared using the accrual basis of accounting. Plan member contributions are recognized in the period in which the contributions are due. Employer contributions to each plan are recognized when due and the employer has made a formal commitment to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of each plan.

Method Used to Value Investments: Investments are reported at fair value. Short-term investments are reported at cost, which approximates fair value. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates. Investments that do not have an established market are reported at estimated fair value.

Membership of the plan consisted of the following as of January 1, 2020:

Retirees and Beneficiaries Receiving Benefits	1,372
Terminated Plan Members Entitled to but not yet Receiving Benefits	240
Active Plan Members	1,700
Total	<u>3,312</u>
Number of Participating Employers	1

Schedule A – Continued

Lancaster County Employees' Retirement System

Plan Description: The Lancaster County Employees' Retirement Plan is a single-employer defined benefit pension plan that covers all employees of the County. The plan provides retirement, disability, and death benefits to plan members and their beneficiaries. Cost-of-living adjustments (COLA) are provided at the discretion of the Lancaster County Employees' Retirement Board. Act 96 of 1971, as amended cited as the County Pension Law provides for the creation, maintenance and operation of this plan.

Contributions: Plan members are required to contribute 5% of their annual covered salary. The County is required to contribute at an actuarially determined rate. Per Act 96 of 1971, as amended, contribution requirements of the plan members and the County are established and may be amended by the General Assembly of the Commonwealth of Pennsylvania. Administrative costs may be financed through investment earnings.

Schedule F

Schedule F determines the certified actuarially determined contribution of \$4,918,872 for 2020 for the Lancaster County Employees' Retirement System.

1.	Total Amortization Charge/(Credit) (page 11 (u))	\$ 2,909,154
2.	Normal Cost with interest to end of year (page 9 II 1(f))	\$ 6,324,960

4.	Total Funding Requirement for 2020 (actuarially determined contribution for 2020): (1) + (2) – (3), but not less than 0	\$ 4,918,872

Notes:

The actuarially determined contribution for 2020 as a percentage of the estimated 2020 compensation (\$83,386,323) for active members is 5.90%.

The equivalent normal cost accrual rate to be applied to actual 2019 salaries to determine reimbursable expenses is 6.14%.

Schedule G

The following are notes to Schedules B and I:

Members' Annuity Reserve Account: The balance of \$75,683,563.14 in this account is the total of the contributions deducted from the salaries of the active and terminated vested members of the retirement system and the IRC 414(h)(2) pickup contributions together with the interest additions as of January 1, 2020. Since these accumulations represent the present value as of January 1, 2020, of future benefits, the reserve balance and liability are identical.

County Annuity Reserve Account: The balance of \$46,060,841.06 in this account as of January 1, 2020 and the amounts expected to be credited in the future, plus investment earnings, represent the reserves set aside for the payment of the county's share of the retirement allowances.

This is the account out of which regular interest is credited to the member's annuity and retired members' reserve account, administrative expenses may be paid and the pension obligations of the County are funded.

When a County Annuity is scheduled to commence for a particular member, sufficient monies are transferred from the County Annuity Reserve Account to the Retired Members' Reserve Account to provide for such County Annuities actually entered upon.

Retired Members' Reserve Account: This is the account out of which monthly retirement allowances including cost-of-living increases and death benefits are paid.

The assets allocated to this reserve account as of January 1, 2020 amount to \$151,157,889.00. The corresponding liability for those annuitants on the roll is identical.

Schedule G – Continued

Actuarial Value of Assets: The Actuarial Value of Assets equals the Market Value of Assets adjusted for unrecognized gains and losses from prior years. Gains and losses are determined by calculating the expected asset return based on Plan assumptions and subtracting the actual Plan return. Gains and losses are phased in 20% per year over a 5-year period. The Actuarial Value of Assets is adjusted, if necessary, to fall within a corridor of 80% to 120% of Market Value of Assets.

1.	Market Value of Assets as of 1/1/2019		\$	269,730,523
2.	Contributions for 2019		\$	10,811,410
3.	Disbursements during 2019		\$	18,076,822
4.	Expected Return at 7.25% Interest		\$	19,292,092
5.	Actual Return for 2019		\$	54,847,212
6.	Gain/(Loss) for 2019		\$	35,555,120

Schedule M

Actuarial Assumptions and Actuarial Cost Method for Funding Purposes, January 1, 2020.

Actuarial Assumptions

Mortality Rates: SOA Pub-2010 for general employees with generational projection using Scale MP-2019.

Withdrawal Rates: Members not eligible to retire are assumed to terminate employment in accordance with a percentage of the withdrawal rates set forth in Table T-7 of the Actuary's Handbook. The applicable percentage depends on the member's years of service as follows:

YEARS OF SERVICE	PERCENTAGE
Less than 1	300%
1 but less than 2	275%
2 but less than 3	250%
3 but less than 4	225%
4 but less than 5	200%

It is further assumed that a percentage of members who terminate after having met the Plan's five year vesting requirement will elect an immediate refund of their own contributions with interest thus forfeiting the County -- provided pension. The applicable percentage is 100% for termination ages up to age 30. After age 30 the applicable percentage is determined as 100% less $(age - 30) \times 3 \frac{1}{3}\%$. Illustrative percentages are as follows:

AGE	PERCENTAGE
30 or less	100.0%
35	83.3%
40	66.7%
45	50.0%
50	33.3%
55	16.7%

Once member reaches retirement eligibility, a withdrawal rate of zero is assumed.

Schedule M - Continued

The following tables set forth illustrative withdrawal rates as determined in accordance with the methodology described on the previous page.

Disability Rates: Disability rates are not used.

Investment Return: 7.00% per annum, compounded annually.

Salary Increases: 4.0% per annum.

Valuation Assets: Market value adjusted for unrecognized gains and losses from prior years.

Administrative Expenses: Assumed to be paid from the County's general fund and not from plan assets. However, administrative expenses may from year to year be paid from the fund unless it is determined by the actuary that such payment will impair the actuarial soundness of the fund.

Actuarial Cost Method: The actuarial cost method used to determine the plan's funding requirements is the entry age normal method. Under this method, an actuarial accrued liability is determined as the actuarial present value of projected benefits for all participants minus the actuarial present value of future normal costs. The normal cost is determined as the annual amount required to fund between entry age and assumed exit age the actuarial present value of projected benefits for each active participant under the assumed retirement age.

Changes Since Prior Valuation: The accumulated deduction valuation method was changed. The investment return assumption was changed from 7.25% to 7.0%. The Pub-2010 for General mortality table was adopted. There were no other charges.

Schedule N

Summary of Plan Provisions

- 1. Effective Date** - The effective date of this plan is January 1, 1961.
- 2. Eligibility for Plan Membership** - An employee shall be eligible to become a participant immediately upon becoming an employee.
- 3. Accrued Benefit** - The Retirement Board has authorized benefits equal to a percentage of the members Final Average Salary for each year of service the member has participated in the following Classes:

Class	Percentage	Effective
1/120	0.833%	01/01/1961
1/100	1.000%	01/01/1973
1/80	1.250%	01/01/1977

4. Normal Retirement (Superannuation)

Eligibility: Retirement occurs at age 60 or at age 55 if the participant has completed 20 years of service.

Pension: A monthly pension equal to (a) and (b), as follows:

- 0.833% of 1/12th of Final Average Salary multiplied by years of credited service on the 1/120 Class,
- 1.000% of 1/12th of Final Average Salary multiplied by years of credited service on the 1/100 Class,
- 1.250% of 1/12th of Final Average Salary multiplied by years of credited service on the 1/80 Class,

PLUS

- a monthly annuity based on the actuarial equivalent of the member's accumulated contributions with credited interest.

Schedule N - Continued

5. **Final Average Salary** - The average of the member's annual compensation received for the three years which produce the highest such average.
6. **Compensation** - Pick-up contributions plus remuneration received as a county employee excluding refunds for expenses, contingency and accountable expense allowances and excluding severance payments or payments for unused vacation or sick leave.
7. **Early Retirement**
 - Eligibility:**
 - Voluntary:** Upon completion of 20 years of service.
 - Involuntary:** Upon completion of 8 years of service.
 - Pension:** (a) a monthly pension equal to the actuarial equivalent of the benefits calculated in 4(a),

PLUS

(b) a monthly annuity based on the actuarial equivalent of the member's accumulated contributions with credited interest.
8. **Vesting** - One Hundred Percent (100%) upon completion of five years of credited service. A member who terminates employment after five years of credited service will receive a deferred annuity commencing at age 60 (or at age 55 if the member has at least 20 years of service at termination). The deferred benefit shall be calculated using the normal retirement pension formula but based on credited service, final average salary and accumulated contributions at termination.

If a member terminates employment prior to entitlement to Plan benefits, he will receive his accumulated contributions with interest.
9. **Postponed Retirement** - A member may work past normal retirement age and continue to accrue pension credits.

Schedule N - Continued

10. Disability Retirement

Eligibility: Total and permanent disability prior to Superannuation (Normal Retirement) age and after completion of five years of credited service.

Pension: A total monthly pension commencing on the last day of the month following disability retirement equal to 25% of the 1/12th of Final Average Salary at time of retirement. Such total monthly pension shall include the monthly disability that is actuarially equivalent to the member's accumulated contributions at retirement.

11. Normal Form of Pension - Benefits are payable in the form of a modified cash refund life annuity, that is for the member's lifetime only, except that disability benefits shall cease upon cessation of disability.

12. Optional Retirement Benefits - A member may elect to receive the actuarial equivalent of his retirement benefit as a full cash refund annuity (Option One) or a reduced joint and survivor pension payable for the remainder of his life, with either 100% or 50% of the member's pension continuing after death to the designated beneficiary. A member may also elect to receive, in one payment, the full amount of his accumulated deductions and continue to receive the annuity provided by the county.

13. Death Benefits

(a) **Pre-Retirement.** If a member dies after having attained age 60 or having completed ten years of credited service, his beneficiary will receive a lump sum equal to the actuarially determined present value of the benefits calculated in (7a) based on the member's Final Average Salary and credited service at time of death plus the member's accumulated contributions with interest at time of death.

(b) **Post-Retirement.** Upon the death of a terminated or retired member, his beneficiary will receive survivor benefits, if any, in accordance with the form under which benefits were being paid to the member. In any event, the total amount of benefits paid to the deceased member and beneficiary must, at least, equal the member's accumulated contributions with interest.

Schedule N - Continued

14. Employee Contributions

The Retirement Board has authorized each member of the retirement system to individually elect to contribute between 5% and 15% of his salary.

Plan Maturity Measures

Assets are accumulated over participants' careers to pay future benefits. The natural growth of liabilities and assets is referred to as plan maturity. As the plan matures, the size of the plan grows relative to the active members' payroll and will cause changes in the assets or liabilities to have a larger effect on the Actuarially Determined Contribution (ADC). The following table shows a history of the plan's maturity and the effect of a 1% change in plan assets or liabilities on the ADC.

<u>Fiscal Year</u>	<u>Actives Per Retirees</u>	<u>Ratio of Assets to Payroll</u>	<u>Effect on ADC of a 1% Change in Assets</u>	<u>Ratio of Actuarial Liability to Payroll</u>	<u>Effect on ADC of a 1% Change in Liability</u>
